Message from the Chairman

I am very privileged to be the chairman of ASSP Kuwait Chapter since the chapter's inception in 2000.

The ASSP-Kuwait chapter envisions developing into a center of excellence providing professional guidance, services, consultancy and resources to the Industrial and Social sectors in the region on matters related to Health, Safety and Environmental Protection.

ASSP Kuwait Chapter is an ISO 9001:2015 certified non-profit organization of professionals committed to the advancement of Health, Safety and Environment (HSE) practices among the Industrial sectors and social groups in Kuwait. ASSP, USA was established In 1911. Society has been the most respected advocate for workplace safety and health professionals, working hard to advance the profession and the individuals throughout the globe. It is well connected with more than 38,000 members in more than 80 countries around the world and the Kuwait chapter is the most vibrant chapter outside the USA in terms of spreading the message actively. we connect safety and health professionals to a vast community of peers, resources and opportunities. In line with ASSP Kuwait chapter objectives we organize the following programs to meet these objectives, and we strongly communicate which each other and with the community through various media and communication channels.

Following are the major activities of the chapter where HSE professionals, Industries can make use of these programs for the advancement of HSE awareness for their employees and with this platform provided they can share their best practices utilizing their CSR budgets.

- International HSSE Professional Development Conference & Exhibition
- GCC HSE Excellence Award to recognize private sector Companies
- HSE Training programs
- Complimentary HSE Technical Seminars / HSE Webinars
- Publications (E-newsletters, Awareness Flyers) to promote HSE awareness for HSE professionals and the community
- Community Outreach Campaigns like Beach Clean-up, Defensive Driving programs etc
- Exclusive events for Women in Safety Excellence

Eng. Fadhel Al Ali

We as a chapter believe think globally and act locally and I once again thank all the volunteers of the chapter for their continuous voluntary efforts in achieving the common goal of,

“

Working for a better safer stronger future”.

Message from the President

It is a true honour and privilege to serve as the President of the ASSP Kuwait Chapter. Reflecting on the past year, I am filled with immense gratitude and pride for everything we have achieved together. Every initiative, technical session, outreach programme, and meaningful engagement has been a testament to the dedication, professionalism, and collaborative spirit that define our Chapter.

The profession of occupational health, safety, security, environment, and loss prevention continues to evolve rapidly, presenting both new challenges and exciting opportunities. Today, our responsibility extends far beyond regulatory compliance. As safety professionals, we are leaders, educators, mentors, and advocates, committed to fostering workplaces where every individual can perform their duties safely and return home to their families each day.

Throughout the year, ASSP Kuwait Chapter has remained steadfast in its mission to promote professional excellence through knowledge sharing, technical learning, networking, and community engagement. Our conferences, workshops, technical meetings, student initiatives, and outreach programmes have reinforced the importance of continuous learning and collaboration. These accomplishments would not have been possible without the unwavering commitment and active participation of our members.

I extend my sincere appreciation to our Executive Committee, Advisory Board, Student Chapter, committee heads, volunteers, speakers, sponsors, partners, and every member who has generously contributed their time, expertise, and passion. Your dedication continues to strengthen our Chapter and advance the safety profession across Kuwait and the GCC.

As we look ahead for year 2026-27, let us continue to embrace innovation, encourage the exchange of ideas, and mentor the next generation of safety professionals. Together, we can build more resilient organizations, safer workplaces, and healthier communities.

Mr. Mohamed Yusuff. A

Serving as a President has been one of the most rewarding experiences of my professional journey. I sincerely thank each of you for your confidence, encouragement, and continued support. I remain confident that, together, we will continue to build on our achievements and reach even greater milestones in the years to come.

Thank you for being an integral part of the ASSP Kuwait Chapter. Let us continue to lead with purpose, serve with integrity, and work together towards a safer tomorrow.

“

***Working for a better
safer stronger future”.***

Certification & Awards

ISO 9001:2015 Certification

The ASSP Kuwait Chapter is proud to have been awarded the ISO 9001:2015 Certification, an internationally recognised standard for Quality Management Systems (QMS). This achievement reflects the Chapter's commitment to delivering high-quality services, ensuring member and stakeholder satisfaction, and continually improving its processes through an effective quality management system. It demonstrates the Chapter's dedication to operational excellence, consistent performance, and continuous improvement while advancing the health and safety profession through quality-driven programs, professional development, and member engagement.

ASSP Platinum level Chapter Award

The ASSP Kuwait Chapter has been recognised for the 8th time with the prestigious Platinum Level Chapter Award, including for the 2023–2024 term. This distinguished recognition is the highest honour awarded to ASSP chapters and reflects the Chapter's outstanding performance, strong leadership, active member engagement, and continued commitment to advancing the occupational safety and health profession. Achieving Platinum status for the eighth time highlights the Chapter's consistent excellence in delivering high-quality programs, professional development opportunities, and meaningful contributions to the HSE community in Kuwait.

Glance Of Annual General Body Meeting 2026

ASSP Kuwait Chapter Conducts Annual General Body Meeting 2026

The ASSP Kuwait Chapter successfully hosted its Annual General Body Meeting (AGBM) 2026 on 9 July 2026 at the prestigious Al Kout Beach Hotel, Kuwait. The event commenced at 7:00 PM and brought together chapter leaders, committee members, safety professionals, and distinguished guests to celebrate the chapter's achievements, review the past year's accomplishments, and outline its vision for the 2026–2027 term.

Event Highlights

The evening began with an opening address by Mr. Syed Kashif Vali (Secretary), followed by a warm welcome from Eng. Ahmed Al Shatti, Hon. President (2025–26). Eng. Fadhel Al Ali, Chairman of the ASSP Kuwait Chapter, delivered an inspiring address emphasizing professional excellence, collaboration, and the continued advancement of occupational health and safety across Kuwait. The keynote address was delivered by Mr. Naser Bader Al-Buhairi, Manager – Health, Safety & Environment, Kuwait Oil Company (KOC), who shared valuable insights on leadership and the evolving role of HSE professionals in achieving organizational excellence.

The evening began with an opening address by Mr. Syed Kashif Vali (Secretary), followed by a warm welcome from Eng. Ahmed Al Shatti, Hon. President (2025–26). Eng. Fadhel Al Ali, Chairman of the ASSP Kuwait Chapter, delivered an inspiring address emphasizing professional excellence, collaboration, and the continued advancement of occupational health and safety across Kuwait. The keynote address was delivered by Mr. Naser Bader Al-Buhairi, Manager – Health, Safety & Environment, Kuwait Oil Company (KOC), who shared valuable insights on leadership and the evolving role of HSE professionals in achieving organizational excellence.

“

Annual Report Highlights: A Year of Growth and Achievement"

A major highlight of the evening was the presentation of the Annual Report by Eng. Bader Mubarak Al Hadhrami, showcasing the chapter's outstanding accomplishments during the 2025–2026 term. Members reflected on a year marked by professional development conferences, technical meetings, workshops, community outreach initiatives, student engagement, certification milestones, the formation of the ASSP Student Chapter at the Australian University – Kuwait, blood donation campaigns, and the chapter's continued commitment to excellence through its ISO 9001:2015 Quality Management System.

ASSP Kuwait Chapter Unveils PDC & GCC HSE Excellence Awards 2026 and Honors Outstanding Leadership

The event also featured the PDC & GCC HSE Excellence Awards 2026 Curtain Raiser, providing members with an exciting preview of the upcoming Professional Development Conference and GCC HSE Excellence Awards. During the meeting, the President Award 2026 was presented to Ms. Vijaya B. Vadhwane, recognizing her exceptional dedication and outstanding contributions as the WISE Committee Head during the 2025–2026 term.

Annual Financial Report

The Chapter Treasurer, Mr. Mustakbeg Akberbeg Mirza, presented the Financial Report, offering members a transparent overview of the chapter's financial performance and responsible stewardship throughout the year.

Honoring Service, Welcoming New Leadership

A special felicitation ceremony honored the outgoing Executive Committee and dedicated volunteers for their commitment and service. The meeting also introduced the 2026–2027 Core Committee, led by **Mr. Mohamed Yusuff A.** as President, alongside the newly appointed committee heads and members who will continue driving the chapter's mission of promoting safety excellence and professional development.

Working together for a safer and stronger future

The evening concluded with an interactive feedback session and closing remarks, reaffirming the chapter's commitment to innovation, collaboration, and continuous improvement. The Annual General Body Meeting served not only as a reflection of the chapter's remarkable achievements but also as the beginning of another promising year dedicated to advancing the occupational safety and health profession in Kuwait.

Curtain Raiser for 13th International HSSE

Professional Development Conference

PDC 2026 Curtain Raiser

“American Society of Safety Professional Kuwait Chapter Conducts Annual General Body Meeting 2026 and Launches Curtain Raiser for the 13th International HSSE Professional Development Conference”

The American Society of Safety Professionals – Kuwait Chapter (ASSP-KC), an ISO 9001:2015 certified non-profit organization dedicated to advancing Health, Safety and Environment (HSE) practices across Kuwait's industrial sectors and community, successfully conducted its General Body Meeting (GBM) 2026 on 9 July 2026 at Al Kout Beach Hotel, Mangaf, Kuwait.

The meeting commenced with a welcome address by Mr. Syed Kashif Vali, Chapter Secretary, who welcomed the Chief Guest, Mr. Naser Bader Al-Buhairi, HSE Manager, Kuwait Oil Company (KOC), along with Eng. Ahmed Eissa Al Shatti, Honorary President, Eng. Fadhel Al Ali, Chairman, advisors, mentors, executive committee members, and chapter members.

In his opening remarks, Eng. Ahmed Eissa Al Shatti expressed his gratitude to the Chief Guest for gracing the occasion and acknowledged Kuwait Oil Company's continued support to the Chapter over the years. He also appreciated the commitment and dedication of the 2025–26 Executive Committee and encouraged members to continue contributing towards the Chapter's growth and excellence.

Eng. Fadhel Al Ali, Chairman of ASSP Kuwait Chapter, commended the accomplishments of the outgoing Executive Committee and thanked the volunteers whose dedication has strengthened the Chapter's mission of promoting HSE excellence across Kuwait.

Addressing the gathering, Mr. Naser Bader Al-Buhairi, HSE Manager, Kuwait Oil Company, shared his experiences with ASSP Kuwait Chapter and highlighted the government's ongoing efforts to strengthen HSSE policies in response to emerging challenges. He appreciated the voluntary contributions of the Chapter members in serving the HSE profession and the wider community.

During the meeting, Eng. Bader Mubarak Al Hadhrami, who served as President of ASSP Kuwait Chapter for a second consecutive term, presented the Chapter's Annual Report for 2025-26. The report highlighted several significant achievements, including the successful organization of the 12th Professional Development Conference (PDC), the GSS HSE Excellence Awards 2025, regular monthly technical meetings, professional training programs, workshops, and community outreach initiatives.

He also highlighted key strategic milestones achieved during the term, including the establishment of the first-ever ASSP Student Chapter at the Australian University Kuwait, a historic initiative among ASSP Chapters worldwide. He further emphasized the successful implementation of a fully electronic transaction system for all Chapter activities, eliminating cash transactions and enhancing transparency and operational efficiency.

The Chapter's Treasurer, Mr. Mustakbeg Akberbeg Mirza, presented the financial report, which reflected a healthy improvement in the Chapter's financial position. He also shared the successful transition to a completely digital financial transaction system, acknowledging the guidance and support received from the Chapter leadership.

The outgoing Executive Committee, committee heads, and volunteers were recognized for their dedicated service during the 2025-26 term. Ms. Vijaya Vadhawane, Head of the WISE Committee, received the President's Award – Best Performer of the Year in recognition of her outstanding contribution to the Chapter's activities. The ASSP Safety Professional of the Year 2026 award was presented to Eng. Bader Mubarak Al Hadhrami for his exceptional leadership and contributions to the Chapter.

The newly elected Executive Committee, Honorary Office Bearers, Advisory Committee Members, Committee Heads, and Committee Members for the 2026-27 term were formally introduced during the meeting. The Executive Committee comprises Mr. Mohamed Yusuff A. (President), Mr. Syed Kashif Vali (Vice President), Mr. Prabeesh M P (Secretary), and Mr. Munir Khan N Pathan (Treasurer). The Honorary Office Bearers for the term are Eng. Ahmed Al Shatti (Honorary President), Eng. Noor Al Sadi (Honorary Vice President), and Eng. Yaser Al-Hamad (Honorary Secretary). Members congratulated the newly elected leadership team and extended their best wishes for a successful, productive, and impactful tenure in advancing the Chapter's mission of promoting occupational safety, health, and environmental excellence across Kuwait.

A major highlight of the evening was the official curtain-raiser for the 13th International Health, Safety, Security, Environment and Loss Prevention Professional Development Conference and Exhibition (13th PDC), scheduled to be held on 4–5 October 2026 at The Regency Hotel, Kuwait. The conference, organized by the American Society of Safety Professionals (ASSP) – Kuwait Chapter under the patronage of H.E. Tareq Sulaiman Al-Roumi, Minister of Oil, State of Kuwait, and supported by Kuwait Petroleum Corporation (KPC) and its subsidiaries as Premium Endorsing Organizations, will be held under the theme:

“Intelligent HSSE: Leveraging AI to Strengthen Process Safety, Drive Sustainability and Enhance Operational Excellence.”

The event is expected to bring together global HSSE leaders, industry experts, policymakers, researchers, corporate executives, and practitioners to exchange knowledge on emerging technologies, best practices, and future challenges in occupational safety and operational excellence.

The conference will also host the GCC HSSE Excellence Awards 2026, recognizing organizations that have demonstrated outstanding commitment and achievements in Health, Safety, Security, and Environment across the GCC region. The PDC Magazine was officially unveiled by the Chief Guest, Chapter leadership, and the Conference Organizing Committee, marking the formal launch of the conference.

The General Body Meeting was attended by more than 75 members, reflecting the continued growth and strong engagement of the ASSP Kuwait Chapter. The event concluded with closing remarks and a feedback session led by **Mr. Mohammed Yusuff A.**, reaffirming the Chapter’s commitment to promoting professional development, knowledge sharing, and HSE excellence across Kuwait.

05

Safety Professional of the year 2026

Eng. Bader Mubarak Al Hadhrami

Honoured as Safety Professional of the Year 2026

SPY

The ASSP Kuwait Chapter proudly congratulates **Eng. Bader Mubarak Al Hadhrami**, Immediate Past President of the Chapter (2025–2026 term), on receiving the prestigious Safety Professional of the Year (SPY) 2026 Award.

This distinguished recognition acknowledges Eng. Bader's exceptional leadership, dedication, and significant contributions to advancing occupational health and safety excellence. During his tenure as President of the ASSP Kuwait Chapter (2025–2026), he demonstrated remarkable commitment toward strengthening professional engagement, promoting knowledge sharing, and supporting initiatives that contribute to the growth of the HSE community.

Through his vision, professionalism, and passion for safety, Eng. Bader has made valuable contributions toward fostering a proactive safety culture and inspiring fellow safety professionals. His achievement reflects his outstanding service, leadership qualities, and continuous efforts to elevate the standards of the safety profession.

The Safety Professional of the Year (SPY) Award celebrates individuals who have demonstrated exceptional performance, innovation, and dedication in advancing workplace safety and occupational health practices. The ASSP Kuwait Chapter extends its heartfelt congratulations to Eng. Bader Mubarak Al Hadhrami on this well-deserved achievement and wishes him continued success in his future endeavours.

Leadership Meets

KPC HSSE Manager

to Strengthen Partnership
for 13th PDC 2026

Al-Zour Refinery

This is the world's largest grass-root refinery with 615,000 bpd capacity. The refinery is designed to process various types of Kuwait crude including the Kuwait Heavy Crude (KHC) oil, which will be produced according to KPC upstream strategy. It provides clean fuel oil to the power plants; and an expansion plan to full conversion is considered as a suitable option.

“ASSP Kuwait Chapter Leadership Meets KPC HSSE Manager to Strengthen Partnership for 13th PDC 2026”

مؤسسة البترول الكويتية
Kuwait Petroleum Corporation

A delegation from the American Society of Safety Professionals (ASSP) – Kuwait Chapter, comprising Eng. Fadhel Al Ali, Chairman, Eng. Ahmed Al Shatti, Honorary President, and Eng. Mohammad Yusuff, President, recently met Mr. Bashar Al-Khashti, Manager – Health, Safety, Security and Environment, Kuwait Petroleum Corporation (KPC) to express sincere appreciation for KPC's continued support and partnership in advancing HSSE excellence in Kuwait.

During the meeting, the delegation briefed Mr. Bashar Al-Khashti, on the preparations for the **13th International HSSE & Loss Prevention Professional Development Conference** scheduled for 4-5 October 2026 at The Regency Hotel, Kuwait, under the patronage of H.E. Tareq Sulaiman Al-Roumi, Minister of Oil, State of Kuwait.

The delegation also highlighted this year's conference theme, **"Intelligent HSSE: Leveraging AI to Strengthen Process Safety, Drive Sustainability, and Enhance Operational Excellence,"** reflecting the growing role of artificial intelligence and innovation in advancing HSSE performance across industries.

The ASSP Kuwait Chapter conveyed its heartfelt appreciation to Mr. Bashar Al-Khashti and KPC for their longstanding support and confidence in the Chapter's initiatives and the delegation expressed its sincere hope for KPC's continued guidance, participation, and valued support in making the 13th PDC and GCC HSSE Excellence Awards 2026 another milestone event for the HSSE profession in the GCC.

ASSP Kuwait Regional Industry Engagement

“ ASSP Kuwait Regional Industry Engagement”

As part of promotion for the **13th International HSSE & Loss Prevention Professional Development Conference (13th PDC)**, Mr. Bader Al Hadhrami, PDC Deputy Director, met Mr. Hazzaa Al Habsi, Chief Operating Officer of MB Petroleum Services and Vice Chairman of OPAL Oman.

He briefed him on the 13th PDC and the GCC HSSE Excellence Awards 2026, highlighting the theme "Intelligent HSSE: Leveraging AI to strengthen process safety, sustainability, and operational excellence." The discussion emphasized regional collaboration and encouraging GCC industry participation to advance HSSE knowledge sharing and excellence.

ASSP Kuwait Chapter & SPE Kuwait Section

Explore Future Collaboration

“

ASSP Kuwait Chapter and SPE KUWAIT SECTION Explore Future Collaboration

In a significant step towards strengthening professional partnerships, representatives from the ASSP Kuwait Chapter and the SPE Kuwait Section convened to discuss opportunities for strategic collaboration and mutual growth. The meeting focused on identifying areas where both organizations can work together to enhance professional development, technical engagement, and knowledge sharing across Kuwait's high-risk industries.

The ASSP Kuwait Chapter delegation included Mr. Fadel Al Ali, Chairman, Mr. Ahmed Al-Shatti, Honorary President & PDC 2026 Director, and Mr. Bader Al-Hadhrani, PDC 2026 Deputy Director. Representing the SPE Kuwait Section were Mr. Mohammad AlBahar, Chairperson, and Mr. Basel Alotaibi, PMP, MBA, SPEC, Vice Chairperson.

The discussions highlighted the potential for joint initiatives that leverage the expertise, experience, and professional networks of both organizations. By fostering collaboration between safety and petroleum industry professionals, both chapters aim to create valuable learning opportunities, promote technical excellence, and contribute to the advancement of safer, more resilient, and sustainable workplaces across Kuwait.

The meeting reflects a shared commitment to building stronger professional connections and delivering greater value to members through future collaborative programmes and initiatives.

HSE

Article of the month

Safety Beyond the Workplace:
Building resilience during
regional uncertainty

Article Prepared by: **Mr.Narendra Patel , CSP, Unit Head- PCIC**

SAFETY BEYOND THE WORKPLACE:

Building Resilience During Regional Uncertainty

Prepared People. Prepared Workplaces. Resilient Communities.

The recent geo-political developments in our region remind us that unexpected situations can arise with little warning. While governments and organizations manage strategic responses, every individual and workplace has a critical role to play in preparedness and protecting what matters most—our people, our families, and our communities.

As HSE professionals, we understand that safety is not limited to the workplace. It extends to how we prepare, respond, and support each other during times of uncertainty.

WHAT HSE PROFESSIONALS SHOULD FOCUS ON

Protect
People
First

Plan for
Emergencies

Communicate
Clearly

Ensure Business
Continuity

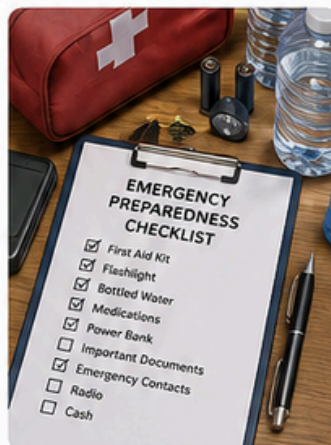

Build
Resilience

“Preparedness is not about fear;
it is about responsibility.
A safe today builds a stronger
tomorrow.”

PRACTICAL WORKPLACE MEASURES

Small actions today can make a big difference when it matters most.

- ✓ Review and update **emergency response plans**.
- ✓ Verify and display **emergency contact lists**.
- ✓ Ensure **first aid kits** are complete and accessible.
- ✓ Inspect **firefighting equipment** and **alarm systems**.
- ✓ Ensure **emergency exits** and **routes** are clear.
- ✓ Conduct **evacuation drills** and review assembly points.
- ✓ Review shelter-in-place or lockdown procedures (if applicable).
- ✓ Test **emergency communication channels** and alert systems.
- ✓ Verify backup power, **emergency lighting** and critical systems.
- ✓ Secure **hazardous materials** and control access.
- ✓ Reinforce **contractor safety accountability**.
- ✓ Coordinate with local authorities and stay informed.

FAMILY PREPAREDNESS MATTERS

Safety begins at home. Be ready, stay calm, and look out for one another.

- Keep **emergency phone numbers** handy.
- Maintain an adequate supply of **medications**.
- Keep a **flashlight**, **spare batteries** and a **power bank**.
- Store copies of important **documents**.
- Keep **drinking water** and **essential supplies**.
- Have a **family communication plan**.
- Follow **official information sources** and avoid unverified rumors.

MENTAL PREPAREDNESS

A calm and informed mind is our greatest asset in uncertain times.

- **Stay informed** through official government channels only.
- **Verify information** before sharing.
- **Avoid panic** and help others stay calm.
- **Support** your colleagues and check on one another.
- Continue normal operations unless advised otherwise.

“True safety leadership is demonstrated not only by preventing workplace incidents but also by preparing people and organizations to respond effectively to unexpected events. Preparedness, resilience, and informed decision-making are the foundations of a safer workplace, stronger communities, and a more secure future.”

10 SAFETY ACTIONS YOU CAN TAKE TODAY

- 1 Save emergency contacts in your phone.
- 2 Charge your devices and power banks.
- 3 Keep emergency supplies ready.
- 4 Review evacuation routes at work and home.
- 5 Update emergency contact lists.
- 6 Test communication methods.
- 7 Inspect emergency equipment.
- 8 Monitor official advisories.
- 9 Avoid spreading unverified information.
- 10 Stay calm, alert and prepared.

Let us continue to lead with care, professionalism, and commitment—today and always.

Stay Informed. Stay Prepared. Stay Safe.

HSE Quiz

Quiz Prepared by: Mr. Alex Sam Issac, CertIOSH,MIIRSM

SAFETY QUIZ

1. According to ISO 45001:2018, which approach best demonstrates the concept of "risk-based thinking"?

- A) Reacting only after an incident occurs
- B) Identifying hazards, evaluating risks, and implementing controls proactively
- C) Conducting safety inspections only when requested by management
- D) Focusing only on legal compliance requirements

2. During a HAZOP study, the team applies the guide word "MORE" to a process parameter. What does this typically indicate?

- A) Complete loss of the process function
- B) Quantitative increase beyond the intended design condition
- C) Reverse flow in the process system
- D) Failure of safety instrumentation

3. A company records a high number of minor incidents but very few major incidents. Which safety management principle should be applied?

- A) Focus only on lagging indicators
- B) Analyze leading indicators and high-potential near misses
- C) Reduce incident reporting requirements
- D) Ignore minor events because they have low consequences

4. According to the Swiss Cheese Model of accident causation, an incident occurs when:

- A) Employees intentionally violate safety rules
- B) Multiple layers of defense fail simultaneously, allowing hazards to reach people
- C) Equipment failure is always the primary cause
- D) Management systems have no influence on workplace accidents

5. A worker is exposed to a chemical with an unknown concentration after a spill. What is the most appropriate initial approach?

- A) Assume exposure is below the occupational exposure limit
- B) Conduct exposure monitoring and apply controls based on the worst credible scenario
- C) Allow work to continue with basic PPE only
- D) Dilute the chemical without assessment

SAFETY QUIZ (CONTINUED)

6. In a Bow-Tie risk assessment, the function of a "barrier" is to:

- A) Eliminate all hazards permanently
- B) Prevent the top event or reduce the consequences after the event occurs
- C) Replace the need for emergency response planning
- D) Identify only unsafe worker behaviors

7. During an incident investigation, the team identifies that inadequate supervision, poor procedures, and insufficient training contributed. These are classified as:

- A) Immediate causes
- B) Unsafe acts
- C) Root and underlying causes
- D) Personal factors only

8. A critical lifting operation requires a detailed assessment. Which factor combination is most important for determining lifting risk?

- A) Weather conditions only
- B) Load weight, center of gravity, lifting equipment capacity, ground conditions, and competency of personnel
- C) Number of workers involved only
- D) Color coding of lifting accessories only

9. A safety professional wants to measure the effectiveness of a safety management system. Which KPI provides the strongest indication of proactive performance?

- A) Lost Time Injury Frequency Rate (LTIFR)
- B) Number of accident investigations completed
- C) Percentage of corrective actions closed on time and safety observation trends
- D) Total number of medical treatment cases

10. A company has implemented extensive PPE requirements but continues to experience incidents. According to the Hierarchy of Controls, the organization should primarily evaluate:

- A) Increasing PPE specifications
- B) Whether higher-level controls such as elimination, substitution, engineering controls, or redesign can be implemented
- C) Increasing disciplinary actions against employees
- D) Reducing safety inspections

ABOUT ASSP

KUWAIT CHAPTER

Founded in 2000, the American Society of Safety Professionals (ASSP) Kuwait Chapter is a leading voluntary, non-profit professional organization dedicated to advancing Health, Safety and Environmental (HSE) excellence across Kuwait and the wider region. As part of the global ASSP community, the Chapter brings together HSE professionals, industry leaders, academics and safety practitioners to promote knowledge sharing, professional development and a strong culture of safety.

Over the past two decades, ASSP Kuwait Chapter has established itself as one of the most active professional HSE bodies in the region through a wide range of initiatives, including international conferences, technical meetings, professional development programs, specialized training, workshops, awareness campaigns, community outreach and student engagement. These activities provide professionals with opportunities to enhance their technical knowledge, exchange experiences and remain updated with evolving HSE practices, standards and technologies.

One of the Chapter's major achievements is its International HSSE & Loss Prevention Professional Development Conference & Exhibition, which has brought together leading HSE professionals, technical experts, industry organizations and exhibitors from Kuwait and around the world. The Chapter also organizes regular technical sessions and professional development activities covering diverse areas of occupational safety, process safety, industrial hygiene, environmental protection, emergency preparedness and emerging HSE technologies.

ASSP Kuwait Chapter strongly believes that recognizing excellence is essential to advancing the safety profession. Through initiatives such as the ASSP GCC HSE Excellence Awards and other professional recognition programs, the Chapter celebrates outstanding contributions, innovative practices and leadership in HSE. These initiatives encourage professionals and organizations to continuously improve their safety performance and share successful practices with the wider HSE community.

The Chapter also places significant emphasis on community outreach, student engagement and the development of future safety professionals. By connecting experienced practitioners with young professionals and students, ASSP Kuwait provides opportunities for mentoring, networking, learning and career development. Its awareness initiatives further extend the importance of health, safety and environmental responsibility beyond the workplace and into the wider community.

With more than two decades of professional service, ASSP Kuwait Chapter continues to evolve through innovation, collaboration, knowledge sharing and continuous improvement. Its commitment to emerging technologies, professional development and regional cooperation reflects its vision of becoming a recognized center of HSE excellence, contributing to safer workplaces, healthier communities and a more sustainable future.
