Working Together for a Safer, Stronger Future.

ASSP Kuwait Chapter is delighted to have been awarded ISO 9001:2015 certification, an internationally recognized standard that ensures their products and services meet the needs of customers through an effective quality management system.

ASSP Kuwait Chapter decision to work towards ISO 9001:2015 accreditation demonstrates their commitment to continually improving their services. To become ISO 9001:2015 compliant, the ASSP Kuwait Chapter team who are based in the state of Kuwait, underwent an extensive audit that measures key performance indicators like Quality management system development, a management system documentation review, pre-audit, initial assessment, and clearance of non-conformances.

ISO is one of the most rigorous and well-regarded standards in the world. American Society of Safety Professionals, (ASSP) Kuwait Chapter were audited by TUV Nord and renewed the ISO 9001 September 2023.

Working Together for a Safer, Stronger Future

During the EC No.214 on 3rd August 2023, Chairman Eng. Mr. Fadhel Al Ali congratulated the team 2023-24 for taking lead to support the chapter. Meeting was used as an opportunity to launch the ASSP-KC GCC HSE Excellence Awards. In our next flagship event, 11th ASSP GCC HSE Excellence Award 2020, Mr. Faris Al-Mansouri, Team Leader, QHSE (MP&TSD), Kuwait Oil Company will lead the event as Director & Mr. Mustak Mirza, QHSE team, Kuwait Oil Company, as Deputy Director for ASSP GCC HSE Excellence Award 2020. During the event Mr. Mustak Mirza presented the goals and objectives for the HSE excellence award and briefly described the various awards the company can apply for.

The first Executive Committee Meeting for the term 2023-2024 was held on 3rd August 2023 at Hotel Safir, Fintas to discuss the chapter activities. Chapter's Secretary Mr. Mohamed Yusuff welcomed the gathering and highlighted the activities to be conducted in the month of August by all the committee as per their plan. In the absence of Treasurer, he took the lead to present the financial statement.

President Mr. Safdar Khan thanked all committees for putting efforts and welcomed the two new committees to the term 2023-2024 (ISO Implementation & Management Committee & Mega Events Committee). He requested all committees to continue with the same spirit till the end of the term. He welcomed all members to the first EC meeting and thanked everyone for their continuous support and commitment to organizing chapter activities.

Chairman Eng. Mr. Fadhel Al Ali congratulated the team 2023-24 for taking lead to support the chapter. Chapter executive Mr. Ramana introduced all the committees and described their plans to the meeting attendees. Meeting was used as an opportunity to launch the ASSP-KC GCC HSE Excellence Awards. The executive committee discussed the yearlong plans to serve the HSE professionals and the community which is the ultimate goal of the organization.

World Ozone Day	
Date	September 16, 2023
Theme	"Montreal Protocol: Fixing the Ozone Layer and reducing climate change"
Significance	Raise awareness about ozone depletion and its environmental impact.
History	Commemorates the Montreal Protocol's adoption in 1987.
Importance	Emphasizes the need to protect the ozone layer for a healthier planet.
Key Facts	Ozone layer absorbs 98% of the Sun's UV rays; CFCs harm the ozone layer; the Antarctic ozone hole; Montreal Protocol in 1989.

As part of our continuous efforts to enhance the awareness on World recognized HSE events and to spread the HSE updates which will protect people, property, and Environment, ASSP Kuwait Chapter commemorated the International Day for the Preservation of the Ozone Layer with the theme provided by UNEP for Ozone Day 2023: Montreal Protocol - "Fixing the Ozone Layer and Reducing Climate Change."

The event organized on 27th September 2023 where the imminent speaker Dr. K Murugan, Principal (Rtd) Govt. Arts College, Kerala has given an extensive presentation on Responsibility to protect "Ozone layer" - for Future Generations

ROCK THE WALK

"STEPS CHALLENGE"

Date of Participation:

Start Date - 3 November 2023

End Date of Participation:

End Date - 30 November 2023

Who Can Participate ?

All Kuwait ASSP Chapter Members.

Mode of Participation : Virtual, from the comfort of your routine.

Purpose and Vision of this Programme : Encourage active lifestyle, promote health & wellness among members.

How to Participate

Category-1

Upto 60 Years of Age

Screenshot your Health App or Smartwatch daily step count.

Category-2

61 and above years of Age

Step up and aim for atleast 3000 steps daily.

https://docs.google.com/forms/d/e/1FAIpQLSdgl7GPWsaGmPkg2mj3DfjmYU2hsQ_wNFxZoYlb875_xNhKQ/viewform?usp=sf_link

Required App

Use any health tracking app or smartwatch that records your daily step count.

Participants Will Get

First Congratulations you are promoting your health!

Biweekly Recognition : Top 3 participants with the highest weekly steps.

Monthly Overall Recognition : Top 3 participants with the highest steps at the end of the month.

How the Result Will Be Finalised

Based on highest verified steps shared during the specified periods. The week is counted from Friday to Thursday. Members shall submit the Data of the week by 22:00 HRS on Thursday. The event committee will evaluate the data submitted and the winners will be announced.

Organized by ASSP Kuwait HSE event committee

Awareness Campaign - Safety in Educational Environment
by ASSP-KC, WISE & Student Committee.

We invite everyone to join us in this endeavor, as we embark on this journey to promote safety within educational environments and schools, we are excited to join hands with like-minded organizations and individuals who share our commitment to creating a secure and nurturing atmosphere for our future leaders

Title: Safety in Educational Environment
Date: 15th & 16th Sep 2023 (Fri & Sat)
Time: 10:00 am to 8:00 pm
Venue: Avenues Mall (Zone 1, Phase 1), Kuwait

CAMPAIGN IS ORGANIZED UNDER THE LEADERSHIP OF

Eng. Hanan Almohammad
WISE Committee Head (ASSP-KC)

Eng. Noor Alsadi
Student Committee Head (ASSP-KC)

info@kuwait.assp.org

kuwait.assp.org

ASSP Kuwait chapter's WISE committee, in collaboration with the ASSP-KC Student Committee, actively participated in an awareness campaign which was organized by the Kuwaiti Society of Engineers (KSE) on 15th & 16th September 2023 at Avenues Mall. The awareness campaign focused on educating the students and families visiting the mall on important topics of ergonomics and safety habits in the educational environment.

ASSP Kuwait Chapter's Safety Professional of the year 2023

Winner of ASSP KUWAIT CHAPTER SPY AWARD 2023

Mazharuddin R Shaikh

ASSP - KC SPY 2023

American Society of Safety Professionals – Kuwait Chapter Safety Professional of the Year Award for 2023 was awarded to Mr. Mazharuddin R. Shaikh. The award will presented to Mr. Mazharuddin Shaikh during the ASSP GCC HSE Excellence Awards 2023 ceremony which will be held on 18th December 2023 at Hilton Resort Kuwait.

The American Society of Safety Professionals (ASSP) hosted a blood donation drive at the Adan Blood Transfusion Center on October 20, 2023, between 13:00 and 16:00 hours. The ASSP Outreach committee carries out an annual blood donation campaign as part of its broader outreach committee program. This year's event was a collaborative effort with EFS Services Company, with active participation from EFS employees, including Mr. Wael Abed, AGM Operations, and Mr. Roopan Rajendran, HSEQ Officer, as part of their social responsibility initiative.

The campaign was formally inaugurated by Mr. Samiullah Pathan Kan, Deputy Head of the Outreach and Government Affairs Committee of ASSP. Over 35 donors from both EFS and ASSP came forward to donate their blood, making a valuable contribution to this noble cause. To recognize their generosity and selflessness, donors were awarded appreciation certificates and provided with refreshments.

Mr. Abul Efham, Vice President of ASSP, expressed his gratitude to the Adan Blood Bank staff, blood donors, and Outreach committee members in a vote of thanks. The event was coordinated by Mr. Balvant Singh, Head of the Outreach and Government Affairs Committee.

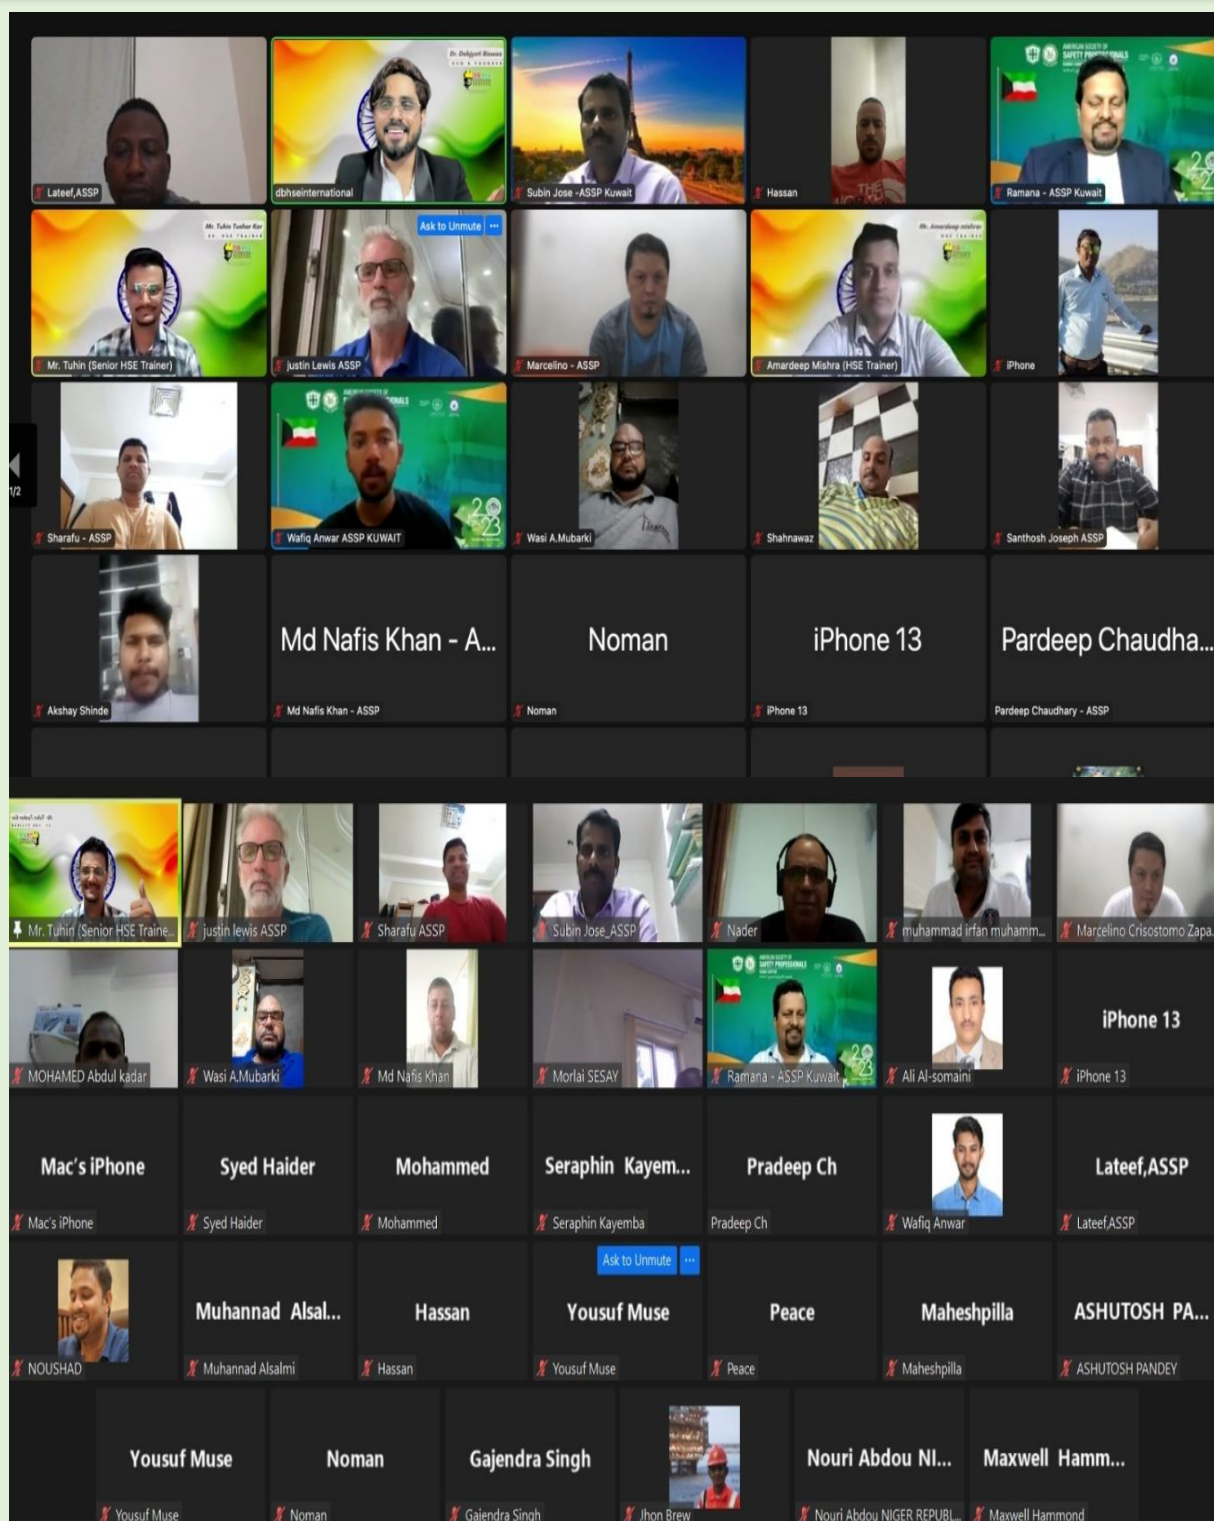

The second Executive Committee Meeting for the term 2023-2024 was held on 4th October 2023 at Hotel Best Western Plus, Mahboula, Kuwait. Participants were Chairman, Advisory Committee members, EC Core Committee, Committee Heads, Strategic Committee Members, Chapter Mentors, and Dy. Director of GCC awards.

The Health, Safety, and Environment (HSE) Events Committee of the American Society of Safety Professionals (ASSP), in collaboration with the Shuaiba Industrial Medical Center in Kuwait, organized a notable event on World Heart Day. Approximately 50 participants gathered at Hotel Kohinoor in Fahaheel, Kuwait, on 1st October 2023.

The event featured a captivating interactive presentation by Dr. Seema Malik on the topic of “Lifestyle Modifications for the Prevention of Heart Diseases” Dr. Seema’s presentation kept the audience engaged throughout.

Quiz winners were recognized and received gifts, while Dr. Seema Malik was honored with a token of appreciation by the Core Committee of the ASSP Kuwait chapter for her valuable contribution.

ASSP Kuwait Chapter in collaboration with DB HSE International, India organized an online 5 days training program “ISO 45001:2018 Lead Auditor Course” from 8th to 12th October 2023. Around 40 participants from around the globe took this opportunity to be certified lead auditors in ISO:45001.

Technical Meet on World Soil Day "Green Desert, Better Environment"

Dear Members,

As a part of ASSP Kuwait Chapter's continuous efforts to bring learning opportunities and the latest developments in the field of Health, Safety & Environment (HSE), Chapter is organizing training programs, technical meets, Process Safety technical sessions, Professional & Career development opportunities...etc for its members and society. The HSE Events Committee of the ASSP Kuwait Chapter (ASSP-KC) organizing one more valuable session on World Soil Day as follows:

World Soil Day is an annual event that serves as a platform to promote the significance of soil in supporting life on Earth. It aims to educate individuals and communities about the essential roles that soil plays in agriculture, food security, biodiversity, climate regulation, and more.

World Soil Day is observed on December 5th each year. World Soil Day was officially designated by the United Nations General Assembly in 2013 to raise awareness about the significance of soil as a vital resource. It has since become an annual event to promote soil conservation and sustainable land management.

The day aims to emphasize the essential role of soil in providing food, supporting ecosystems, and mitigating climate change, as well as the need for responsible soil stewardship.

PROGRAM DETAILS

Title : **Technical meet on World Soil Day "Green Desert, Better Environment."**
Date : 5th December 2023 (Tuesday)
Timing : 7:00 pm to 8:30 pm Kuwait Time (GMT+3:00)
Media: ZOOM Meeting (Online)

PROGRAM AGENDA

Time	Activity	Managed by
18:45 Hrs	ZOOM meeting opens	Moderator
19:00	Opening Address	Secretary, ASSP-KC
19:03	President Address	President, ASSP-KC
19:06	Briefing of Chapter Activities	Secretary, ASSP-KC
19:11	Significance of World Soil Day & Speaker's introduction	Head of HSE Events Committee, ASSP-KC
19:15	Technical presentation on World Soil Day "Green Desert, Better Environment"	Presented by Ms. Aisha Al-Baroud, Senior Environmentalist, Kuwait Oil Company
19:50	Questions & Answers	Participants & Speaker
20:00	Quiz competition on Kahoot	Head of HSE Events Committee, ASSP-KC
20:25	Felicitations	Core Committee, ASSP-KC
20:30 Hrs	Closing Address	Vice President, ASSP-KC

SPEAKER

Ms. Aisha Al-Baroud - Senior Environmentalist has seventeen years of experience in the environmental field section, and started working in Kuwait Oil Company with Soil Remediation Group in 2012. Ms. Albaroud earned BSc in Chemical Engineering and a Master's degree in Chemical Engineering-Environment Field (Kuwait University). Moreover, Ms. Aisha earned the Honorary Doctorate (Ph.D. Honoris Causa) in Environmental Engineering, awarded by the International Agency for Standards and Ratings. Additionally, Ms. Al-Baroud was certified in NEBOSH (National Examination Board in Occupational safety and Health) - Environmental Management. She published and presented 40 technical papers in environment fields, which includes soil remediation, air pollution, environment software, unexploded ordnance, risk assessment & ecological monitoring, revegetation, renewable energy, and ground water pollution at several International Conferences, and Journals. In addition, Ms. Albaroud was involved in several Book publications and recently, she released KERP-KOC Journey Book. Last but not least, SE, Aisha obtained multiple awards within Kuwait Oil Company including the 1st Place Winner of the HSSE-CV Award, and the Best HSE Performer Award.

REGISTRATION

Interested members can register for the event on or before **4th December 2023**

Note: All participants will get a **CERTIFICATE OF PARTICIPATION**. But, participation in the online quiz & Feedback on the event is mandatory to receive the certificate.

Preparatory Training on NEBOSH HSE Certificate in Process Safety Management (PSM)

Dear Members,

As part of society's continuous efforts to bring learning opportunities and latest developments for our members in the field of HSE, ASSP Kuwait Chapter's PSM Committee in collaboration with the approved training provider ABACUS INTERNATIONAL is pleased to announce the **NEBOSH HSE Certificate in Process Safety Management** Preparatory training program.

PROGRAM DETAILS

Title:	NEBOSH HSE Certificate in Process Safety Management (PSM) - Preparatory Training		
No. of Days:	4 days (2 Fridays & 2 Saturdays)		
Dates & Timings:	6 th , 9 th , 15 th & 16 th December 2023 - 9:00 am to 2:00 pm		
Course Fees:	KD 190 (For ASSP members)	KD 230 (For Non ASSP Members)	
	This price is inclusive of NEBOSH PSM Examination and training material.		
Venue:	Hotel in Kuwait		

COURSE OVERVIEW:

The NEBOSH HSE Certificate in Process Safety Management is designed specifically for those with safety responsibilities in the process industry, such as oil and gas, chemicals, plastics and pharmaceuticals. The course has been developed through a collaboration between the NEBOSH and the Health and Safety Executive (HSE) the UK's Health & safety Regulator.

This NEW specialist qualification aims to provide holders with the knowledge and understanding of Process Safety Management to ensure that they can contribute to the effective management of process safety risks.

This course is suitable for people all around the world who work in process industries such as oil and gas, chemicals, plastics and pharmaceuticals. Given the hazardous nature of these industries, this qualifications has been designed to give specialist knowledge and understanding to Managers, supervisors and safety professionals.

TRAINER & FACILITATOR'S PROFILE

TRAINER

Mr. Aamir Rasheed

Mr. Aamir Rasheed is a Chartered Safety & Health Practitioner (CMIOSH), Certified Safety Manager (CSM), Lead Auditor & Tutor for ISO 9001, 14001 and 45001, Full Member of IIRSM UK, Lead Tutor for NEBOSH, IOSH, HABC & O-ITM (Level 6, NVQ & Idip), as well as obtained many International HSE certifications. Mr. Aamir is a Mechanical Engineer and poses more than 18 years of experience in Oil & Gas, Petrochemical and Construction Industries.

FACILITATOR:

Mr. Arshad Ayub Shaik is working for Technip Energies as a Lead Technical Safety Engineer. Prior to this, he worked as a Safety Engineer for Kuwait Oil Company (KOC), Process Safety Engineer for leading consulting companies and conducted more than 100 PHAs including software modelling in different sectors. He worked for reputed organizations such as KOC, KNPC, KGOC, PIC, ONGC India, IOCL, DCW, IAL, AMEC Foster Wheeler, Fluor, Petrofac, Saipem, Mott MacDonald and L&T in different countries of Europe, Middle East, Africa and India.

Academic Achievements:

- Post Graduated in Petroleum Engineering from IIT Madras.
- Gold medalist in Chemical Engineering (B. Tech).
- Presented a paper in Marry Kay O' Conner Process Safety Centre titled "Risk Assessment: A tool for Control room sitting" in Texas A&M University, USA

WHO SHOULD ATTEND

- The NEBOSH HSE Certificate in Process Safety Management is a technical qualification. There are no specific entry requirements but the course does assume a certain level of knowledge.
- Health and Safety Knowledge: This course assumes those taking the course will have a good understanding of general health and safety. It is therefore highly
- recommended that students hold the NEBOSH International General Certificate or equivalent before studying the NEBOSH HSE Certificate in Process Safety Management.

EXAMINATION

- Students are assessed by a 90 minutes 40 questions multiple choice examination.
- There is no practical element to this qualification.
- Online Examination will be conducted by NEBOSH on **24th January 2024 (Wednesday)**.

REGISTRATION

Register here:

<https://docs.google.com/forms/d/e/1FAIpQLSdwgn9raitbxG9Og0glP654Pmd0IsBYD1Talt3lQ1zitgss7w/viewform>

Whether a new employee or a 20-year veteran, drops can happen to anyone. Gravity does not discriminate. Just because it has not happened yet is no reason to think it will not happen. In fact, the most serious nuclear threat in U.S. history was the result of a dropped object.

In 1980, an airman performing maintenance on a Titan II missile dropped a single 8-lb wrench socket, which fell more than 70 ft and punched a hole in a fuel tank. This led to an explosion that forced a 9-megaton warhead completely out of the ground, killed a serviceman and injured 20 other people.

To protect employees working at heights, OSH professionals must consider the risk factors that contribute to dropping tools:

- elements (e.g., wind, snow, sea motion);
- body effects (e.g., sweaty or numb hands, fatigue);
- instinctively trying to catch a falling object;
- tool pulling worker down with it if tethered improperly;
- poor housekeeping.

It is all about prevention. Just as personal fall prevention provides the ABCs (anchor, body support, connectors), dropped object prevention involves the three Ts: trapping, tethering and topping.

Trapping describes the installation of retrofit attachment points on tools and primary anchoring locations. The majority of tools do not come with them built in. Anchor attachments should be installed onto locations that are secure and are never intended for heavier tools if applied to a person.

Tethering Often using lanyards, tethering is retention of tools and equipment being used to attach to the anchor points that hold them.

Topping refers to the containers that workers use to bring tools and equipment to and from heights. Regardless of type or mode of transportation, these containers should have a secure closure or top that can cover contents and prevent them from spilling if tipped. Tool pouches and bags are typically carried on individuals to keep the contents at hand while working. These often remain stationary. Hoist buckets and bags are transferred by different means, typically by lifting them in a portable fashion to and from heights.

Controls ANSI/ISEA 121-2018 covers four active controls or tethering and container solutions that workers actively employ to mitigate dropped object hazards. The scope includes:

- anchor attachments: retrofit attachment points installed onto fixed anchor locations;
- tool attachments: retrofit attachment points installed onto tools and equipment;
- tool tethering: lanyards that connect tools to an anchor point;
- containers: bags, buckets and pouches that are used to transport tools and equipment around work zones.

Conclusion : As a first-of-its-kind standard, it will take time for the impact to ripple to the marketplace, but many of the requirements are already being met by leading manufacturers. Businesses with employees who work at heights need to keep the Three Ts in mind. Trapping, tethering and topping can prevent work stoppages and save lives

Deflections

There are 2 primary types of incidents:

Direct impact

Deflection

Gravity as a force does all it can to make dropped items fall vertically.

But, life isn't always straightforward. Dropped objects often have their vertical path obstructed, causing the tool to be deflected.

This turns the dropped object into a projectile.

Physics of falling objects

People often don't realise the impact forces that are generated when an object is dropped.

Even with some form of protection, the result of being struck by an item of relatively low weight can be significant.

Here's an example:

A 2kg hammer

↓

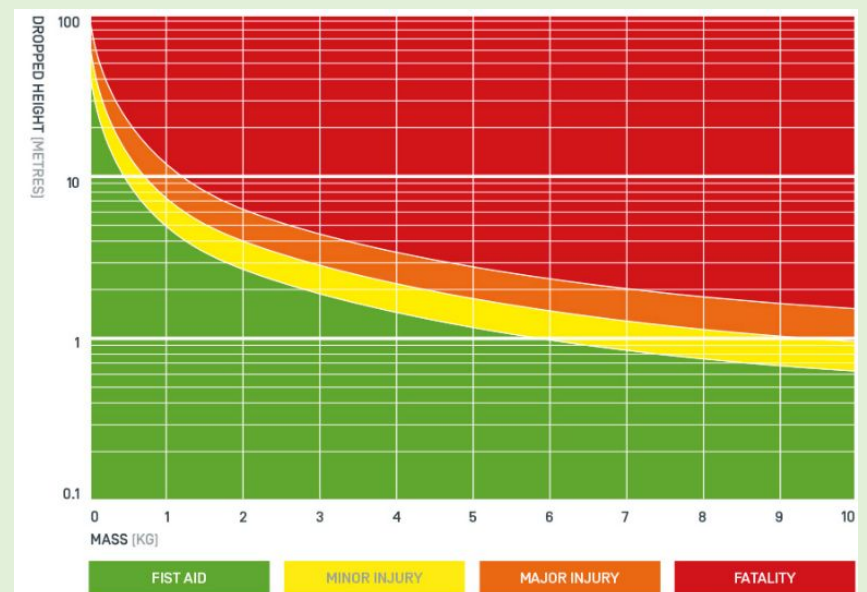

Dropped 5M

↓

Will have an impact force of over 1 Tonne.
That's like an elephant!

Dropped Object Calculator

This calculator helps measure the potential consequences of a falling object and is a very useful tool during the risk assessment process. Source: [Drops.org](https://drops.org)

INTEGRITY, RESPECT, SERVICE, EXCELLENCE

“Four years ago, I attended my very first Toastmasters meeting at ASSP Kuwait Toastmasters club. At the time I had no idea what a profound effect Toastmasters would have upon my life and career! Now, as I look back over my time as a member it’s easy to see the amazing impact it has had.”

- **Dinesh Kumar Pal,**
Immediate Past President & IPA19D

Benefit of joining ASSP-KC toastmasters 🙌🙌

We have witnessed many of our peers lacking confidence to utilize English in their conversations or having debilitating fear of public speaking. But for succeeding in our HSE career, improving our English-speaking skills has become a necessity.

To overcome this fear, we can pay thousands of dollars for training from a tutor which is necessarily not effective and can be a hit or miss. Or you can join Toastmasters for fraction the amount and upgrade your speaking skills. If this is what you have in mind look no further than the ASSP- KC Toastmasters club. Our members have improved their speaking skills leaps and bounds since joining the club which in turn has given a platform to improve safety at the workplace.

Toastmasters club is a nonprofit educational organization that helps you in communicating effectively in English. You can join the ASSP-KC TM Club to improve your confidence , relationships and make the case for improving safety at your workplace. TM also plays a vital role in developing your communication skills and for enhancing your self-esteem.

By joining a group of people who are like-minded you are always pushing yourself to improve and have a platform to practice speaking in front of others in a supportive environment where feedback is prioritized over criticism. Don’t wait anymore – Call VP – Membership Najaz at 66610538 to be a part of this glorious journey.

American Society of Safety Professionals (ASSP) organized Blood Donation Campaign 2023

employees, including Mr. Wael Abed, AGM Operations, and Mr. Roopan Rajendran, HSEQ Officer, as part of their social responsibility initiative.

The American Society of Safety Professionals (ASSP) hosted a blood donation drive at the Adan Blood Transfusion Center on October 20, 2023, between 13:00 and 16:00 hours.

The ASSP Outreach committee carries out an annual blood donation campaign as part of its broader outreach committee program. This year's event was a collaborative effort with EFS Services Company, with active participation from EFS

The campaign was formally inaugurated by Mr. Samiullah Pathan Kan, Deputy Head of the Outreach and Government Affairs Committee of ASSP. Over 35 donors from both EFS and ASSP came forward to donate their blood, making a valuable contribution to this noble cause. To recognize their generosity and selflessness, donors were awarded appreciation certificates and provided with refreshments.

Mr. Abul Efham, Vice President of ASSP, expressed his gratitude to the Adan Blood Bank staff, blood donors, and Outreach committee members in a vote of thanks. The event was coordinated by Mr. Balvant Singh, Head of the Outreach and Government Affairs Committee.

AMERICAN SOCIETY OF
SAFETY PROFESSIONALS

KUWAIT CHAPTER

working to create a safer, stronger future

Become a Member !!!

Founded on October 14, 1911, the American society of safety professionals (ASSP) is the world's oldest professional safety society.

Key facts:

- 38000+ member in 80 countries
- 153 chapters (143 United States, 10 global)
- 39 sections (37 United States, 2 global)
- 9 regions

About ASSP Kuwait chapter

ASSP Kuwait Chapter was founded in 2000 is the Kuwait's premier voluntary, non-profit making Health, Safety and Environmental organization that strives to provide professional guidance, training, consultancy and resources to the industrial and social sectors in the region. In pursuance to its lofty goals and objectives the society has been organizing International Conferences, Technical meets, Training programs and Outreach activities on way to become one of the most active professional bodies in the Middle East especially at valuable land of Kuwait.

Membership

ASSP membership benefits OSH professionals across the full career continuum, whether you're a student, young professional, seasoned manager or corporate leader.

Two member types apply for most safety professionals and those who work in related fields and occupations: member and professional member. Which category is right for you will be determined based on the information you provide on your application.
