# Technical Meet on World Soil Day "Green Desert, Better Environment"

KOC Green Desert Projects

Kuwait Oasis (EK)

Japanese  
Garden

• The Japanese Garden in Al Ahmadi, officially called the "Good Soil Garden," is a public garden. It is owned and managed by the Kuwait Oil Company, and is a project established by the company in cooperation with the Kuwait Institute for Scientific Research along with the Japanese Petroleum Energy Center. This project came as an attempt from the Kuwait Oil Company to solve issues faced by the Kuwaiti society, including environmental issues.

## Kuwait Environmental Remediation Program

### Importance of Restoration of Ecosystem Regional

#### UAE

The Dubai Desert Conservation Reserve (DDCR) is the UAE's first national park spread over an area of 225 Km<sup>2</sup>.

#### Saudi Arabia

- King Salman bin Abdulaziz Royal Natural Reserve (KSRNR). The largest natural reserve - 130,000 km<sup>2</sup>.
- Royal Commission for AlUla.

#### Qatar

- Al Sheehaniya Reserve.
- Al Reem Reserve.
- Um Al Amad Reserve.

## Kuwait Environmental Remediation Program

### Conservation of Desert Environment at KERP Project Sites

#### SKETR II Zones Site offices (South Kuwait)

The HSE Events Committee of the ASSP Kuwait Chapter (ASSP-KC) organized a valuable session on World Soil Day.

Ms. Aisha Al-Baroud, Senior Environmentalist, Kuwait Oil Company gave insights into soil remediation titled "Green Desert, Better Environment".

65 members from different parts of the world attended the technical session on ZOOM platform

The student committee of ASSP Kuwait Chapter actively joined hands with various local organizations to take part in a cleanup initiative at Al-Raqi Park on the 18<sup>th</sup> November 2023

### Awareness session on SIL Study and Layer of Protection Analysis (LOPA)

Dear Members,

ASSP Kuwait chapter's **PSM committee** is planning to organize the PSM Awareness Session "SIL Study and Layer of Protection Analysis (LOPA)" for its members to develop the skills of professionals in the field of Process Safety, to improve general awareness and to provide a platform for networking:

#### PROGRAM DETAILS

Title:	Awareness session on <b>SIL Study and Layer of Protection Analysis (LOPA)</b>		
Date:	12 <sup>th</sup> January 2024 (Friday)		
Timings:	9:00 am to 3:00 pm		
Course fee:	KD 30 (For ASSP members)	KD 50 (For Non ASSP Members)	
Venue:	Hotel Best Western Plus, Mahboula, Kuwait		

#### COURSE CONTENTS

- Explanation of SIS, SIF, and SIL concepts
- Key concepts of SIL assessment
- Criteria for the independent protection layer (IPL)
- Layer of protection analysis (LOPA) methodology and hands-on exercises
- Overview of SIS lifecycle deliverables

#### SPEAKER PROFILE

**Mr. Ambalavanam** is a Certified Functional Safety expert (CFSE) and Certified Automation Cyber Security Specialist (CACS). He is a Consultant for the Process Safety Management Team at Kuwait Oil Company, focusing on Safety Instrumented Systems (SIS) safety life cycle activities. He has in-depth knowledge of designing, commissioning, and maintaining field instrumentation, various DCS & ESD systems, Asset Management Systems, and more. He has successfully conducted multiple SIL assessments, SIL verification, and SIL validation projects. He has presented papers at international conferences, highlighting the challenges faced in Safety Instrumented Systems.

#### WHO SHOULD ATTEND

- Any interested person who would like to aspire knowledge about Process Safety.

#### REGISTRATION

Interested members shall register by paying the registration fee by **5<sup>th</sup> January 2024**. Please contact the Chapter number (+965 50941075) through WhatsApp for the payment link.

The ASSP Kuwait Chapter provides a Certificate of Participation to all attendees of the session

### Preparatory Training on NEBOSH HSE Certificate in Process Safety Management (PSM) ONLINE EVENT

Dear Members,

As part of society's continuous efforts to bring learning opportunities and latest developments for our members in the field of HSE, ASSP Kuwait Chapter's PSM Committee in collaboration with the approved training provider ABACUS INTERNATIONAL is pleased to announce the **NEBOSH HSE Certificate in Process Safety Management** Preparatory training program.

#### PROGRAM DETAILS

Title:	NEBOSH HSE Certificate in Process Safety Management (PSM) - Preparatory Training online
No. of Days:	4 days (26 <sup>th</sup> & 27 <sup>th</sup> January 2024 & 2 <sup>nd</sup> & 3 <sup>rd</sup> February 2024) 2 Fridays & 2 Saturdays
Dates & Timings:	26 <sup>th</sup> January & 2 <sup>nd</sup> February 2024 - (2 Fridays 9:00 am to 2:00 pm) 27 <sup>th</sup> January & 3 <sup>rd</sup> February 2024 (2 Saturdays 5:00 pm to 9:00 pm)
Course fee:	KD 150 (For ASSP members) <b>KD 200 (For Non ASSP Members)</b> <b>This price is inclusive of NEBOSH PSM Examination and training material.</b>
Media:	ZOOM online platform

#### COURSE OVERVIEW:

The NEBOSH HSE Certificate in Process Safety Management is designed specifically for those with safety responsibilities in the process industry, such as oil and gas, chemicals, plastics and pharmaceuticals. The course has been developed through a collaboration between the NEBOSH and the Health and Safety Executive (HSE) the UK's Health & safety Regulator.

This NEW specialist qualification aims to provide holders with the knowledge and understanding of Process Safety Management to ensure that they can contribute to the effective management of process safety risks.

This course is suitable for people all around the world who work in process industries such as oil and gas, chemicals, plastics and pharmaceuticals. Given the hazardous nature of these industries, this qualifications has been designed to give specialist knowledge and understanding to Managers, supervisors and safety professionals.

#### TRAINER & FACILITATOR'S PROFILE

##### TRAINER

Mr. Aamir Rasheed

Mr. Aamir Rasheed is a Chartered Safety & Health Practitioner (CMIOSH), Certified Safety Manager (CSM), Lead Auditor & Tutor for ISO 9001, 14001 and 45001, Full Member of IIRSM UK, Lead Tutor for NEBOSH, IOSH, HABC & OHTM (Level 6, NVQ & Idip), as well as obtained many International HSE certifications. Mr. Aamir is a Mechanical Engineer and poses more than 18 years of experience in Oil & Gas, Petrochemical and Construction industries.

##### FACILITATOR:

Mr. Arshad Ayub Shaik is working for Technip Energies as a Lead Technical Safety Engineer. Prior to this, he worked as a Safety Engineer for Kuwait Oil Company (KOC), Process Safety Engineer for leading consulting companies and conducted more than 100 PHAs including software modelling in different sectors. He worked for reputed organizations such as KOC, KNPC, KOGOC, PIC, ONGC India, IOCL, DCW, IAL, AMEC Foster Wheeler, Fluor, Petrofac, Saipem, Mott MacDonald and L&T in different countries of Europe, Middle East, Africa and India.

##### Academic Achievements:

- Post Graduated in Petroleum Engineering from IIT Madras.
- Gold medallist in Chemical Engineering (B. Tech).
- Presented a paper in Marry Kay O' Conner Process Safety Centre titled "Risk Assessment: A tool for Control room sitting" in Texas A&M University, USA

#### WHO SHOULD ATTEND

- The NEBOSH HSE Certificate in Process Safety Management is a technical qualification. There are no specific entry requirements but the course does assume a certain level of knowledge.
- Health and Safety Knowledge: This course assumes those taking the course will have a good understanding of general health and safety. It is therefore highly
- recommended that students hold the NEBOSH International General Certificate or equivalent before studying the NEBOSH HSE Certificate in Process Safety Management.

#### EXAMINATION

- Students are assessed by a 90 minutes 40 questions multiple choice examination.
- There is no practical element to this qualification.
- Online Examination will be conducted by NEBOSH on **21<sup>st</sup> February 2024 (Wednesday)**.

#### REGISTRATION

Interested members shall register by paying the registration fee by **4<sup>th</sup> January 2024**. Please contact chapter number (+965 50941075) through Whatsapp for the payment link.

Maximum capacity per batch is 20 members. The seats shall be filled-in on FIRST COME FIRST SERVE on payment basis.

**REGISTER NOW**

[kuwait.assp.org](http://kuwait.assp.org)

Whether a new employee or a 20-year veteran, drops can happen to anyone. Gravity does not discriminate. Just because it has not happened yet is no reason to think it will not happen. In fact, the most serious nuclear threat in U.S. history was the result of a dropped object.

In 1980, an airman performing maintenance on a Titan II missile dropped a single 8-lb wrench socket, which fell more than 70 ft and punched a hole in a fuel tank. This led to an explosion that forced a 9-megaton warhead completely out of the ground, killed a serviceman and injured 20 other people.

To protect employees working at heights, OSH professionals must consider the risk factors that contribute to dropping tools:

- elements (e.g., wind, snow, sea motion);
- body effects (e.g., sweaty or numb hands, fatigue);
- instinctively trying to catch a falling object;
- tool pulling worker down with it if tethered improperly;
- poor housekeeping.

It is all about prevention. Just as personal fall prevention provides the ABCs (anchor, body support, connectors), dropped object prevention involves the three Ts: trapping, tethering and topping.

**Trapping** describes the installation of retrofit attachment points on tools and primary anchoring locations. The majority of tools do not come with them built in. Anchor attachments should be installed onto locations that are secure and are never intended for heavier tools if applied to a person.

**Tethering** Often using lanyards, tethering is retention of tools and equipment being used to attach to the anchor points that hold them.

**Topping** refers to the containers that workers use to bring tools and equipment to and from heights. Regardless of type or mode of transportation, these containers should have a secure closure or top that can cover contents and prevent them from spilling if tipped. Tool pouches and bags are typically carried on individuals to keep the contents at hand while working. These often remain stationary. Hoist buckets and bags are transferred by different means, typically by lifting them in a portable fashion to and from heights.

Controls ANSI/ISEA 121-2018 covers four active controls or tethering and container solutions that workers actively employ to mitigate dropped object hazards. The scope includes:

- anchor attachments: retrofit attachment points installed onto fixed anchor locations;
- tool attachments: retrofit attachment points installed onto tools and equipment;
- tool tethering: lanyards that connect tools to an anchor point;
- containers: bags, buckets and pouches that are used to transport tools and equipment around work zones.

**Conclusion :** As a first-of-its-kind standard, it will take time for the impact to ripple to the marketplace, but many of the requirements are already being met by leading manufacturers. Businesses with employees who work at heights need to keep the Three Ts in mind. Trapping, tethering and topping can prevent work stoppages and save lives

## Deflections

There are 2 primary types of incidents:

Direct impact

Deflection

Gravity as a force does all it can to make dropped items fall vertically.

But, life isn't always straightforward. Dropped objects often have their vertical path obstructed, causing the tool to be deflected.

This turns the dropped object into a projectile.

## Physics of falling objects

People often don't realise the impact forces that are generated when an object is dropped.

Even with some form of protection, the result of being struck by an item of relatively low weight can be significant.

Here's an example:

A 2kg hammer

↓

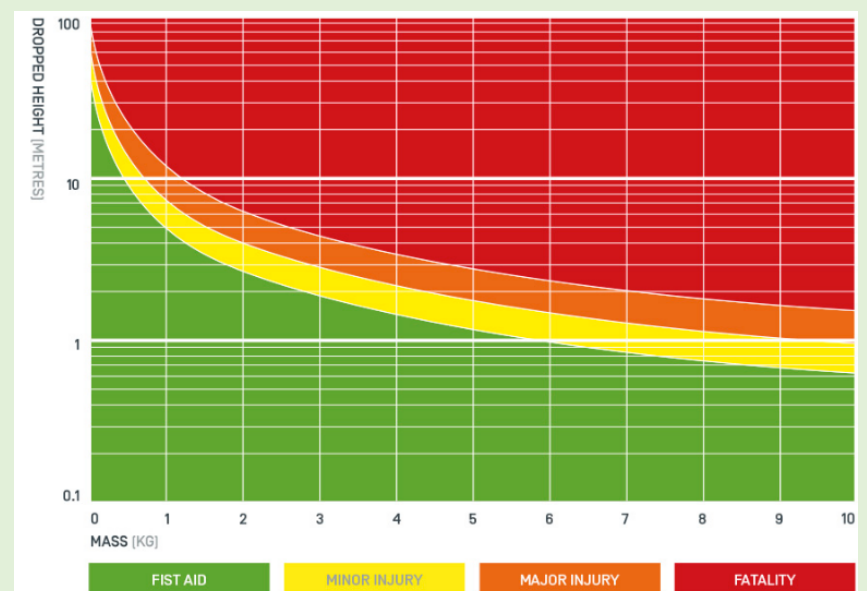

Dropped 5M

↓

Will have an impact force of over 1 Tonne.  
That's like an elephant!

## Dropped Object Calculator

This calculator helps measure the potential consequences of a falling object and is a very useful tool during the risk assessment process. Source: [Drops.org](https://drops.org)

"Four years ago, I attended my very first Toastmasters meeting at ASSP Kuwait Toastmasters club. At the time I had no idea what a profound effect Toastmasters would have upon my life and career! Now, as I look back over my time as a member it's easy to see the amazing impact it has had."

- **Dinesh Kumar Pal,**  
**Immediate Past President & IPA19D**

## Benefit of joining ASSP-KC toastmasters

We have witnessed many of our peers lacking confidence to utilize English in their conversations or having debilitating fear of public speaking. But for succeeding in our HSE career, improving our English-speaking skills has become a necessity.

To overcome this fear, we can pay thousands of dollars for training from a tutor which is necessarily not effective and can be a hit or miss. Or you can join Toastmasters for fraction the amount and upgrade your speaking skills. If this is what you have in mind look no further than the ASSP- KC Toastmasters club. Our members have improved their speaking skills leaps and bounds since joining the club which in turn has given a platform to improve safety at the workplace.

Toastmasters club is a nonprofit educational organization that helps you in communicating effectively in English. You can join the ASSP-KC TM Club to improve your confidence , relationships and make the case for improving safety at your workplace. TM also plays a vital role in developing your communication skills and for enhancing your self-esteem.

By joining a group of people who are like-minded you are always pushing yourself to improve and have a platform to practice speaking in front of others in a supportive environment where feedback is prioritized over criticism. Don't wait anymore – Call VP – Membership Najaz at 66610538 to be a part of this glorious journey.

AMERICAN SOCIETY OF  
SAFETY PROFESSIONALS

## KUWAIT CHAPTER

working to create a safer, stronger future

# Become a Member !!!

Founded on October 14, 1911, the American society of safety professionals (ASSP) is the world's oldest professional safety society.

### Key facts:

- 38000+ member in 80 countries
- 153 chapters (143 United States, 10 global)
- 39 sections (37 United States, 2 global)
- 9 regions

### About ASSP Kuwait chapter

ASSP Kuwait Chapter was founded in 2000 is the Kuwait's premier voluntary, non-profit making Health, Safety and Environmental organization that strives to provide professional guidance, training, consultancy and resources to the industrial and social sectors in the region. In pursuance to its lofty goals and objectives the society has been organizing International Conferences, Technical meets, Training programs and Outreach activities on way to become one of the most active professional bodies in the Middle East especially at valuable land of Kuwait.

### Membership

ASSP membership benefits OSH professionals across the full career continuum, whether you're a student, young professional, seasoned manager or corporate leader.

Two member types apply for most safety professionals and those who work in related fields and occupations: member and professional member. Which category is right for you will be determined based on the information you provide on your application

### Member -Get -A- Member

Following are the benefits for referring your friends or colleagues to ASSP. The more of your friends who join, the more you get rewarded:

	REFER 3	REFER 5	REFER 10
FREE On-Demand Webinar	X	X	X
FREE 1-Year Membership Extension		X	X
FREE Polo Shirt & FREE ASSP Course			X

Grand Prize Drawing : For every new paid member you sponsor from January to December, you will receive an entry in our grand prize drawing for a trip to ASSP's annual professional development conference. This reward includes:

- Full conference registration
- 3 nights hotel accommodations at an ASSP conference hotel
- \$250 AMEX card to use for expenses

### Benefits

- Add the Membership card and certificate from the World's largest and oldest safety organisation to your career profile.
- Free technical meets by experts from HSE field.
- Free webinars by specialist in respective areas.
- Free monthly professional safety magazine
- Subsidized HSE training programs
- CEUs for the training programs
- Networking with other professionals.
- Career and professional development guidance.
- Can join the ASSP toastmasters Club for developing leadership and communication skills.
- Participation in member programs during biannual professional development and conference.
- Opportunity to represent ASSP Kuwait chapter in various international conferences
- Volunteering opportunity and recognition in the society activities.
- Group study learning guidance for the various HSE certifications.
- Access to HSE library online.
- Represent Kuwait chapter in the US and other places Professional Development Conference based on selection criteria.
- Leadership development opportunity and individual recognition.
- Engage with peers in 20 plus Practice Specialty and common interest groups of your own field.
- Career growth and employment opportunities
- Exchange of ideas, sharing best practices and knowledge through decision forms.
- Sharpen your skills with trainings, workshops, technical meets and international conference
